Smooth Start
"A good exfoliation helps remove dead skin cells, which will increase the level of absorption for any product you apply afterwards. (I also suggest a gentle, milky cleanser—nothing too harsh.)"
Zaharah is the resident aesthetician at the Sisley Spa at the Carlyle Hotel in New York City.

Get Rich Quick
"I give clients a richer version of my cream, made with ingredients like shea butter, grape seed oil and avocado oil, which are known to help combat dry skin."
Dr. Ardenne Roberts is a dermatologist in New York City.

Go Green
"Opt for natural ingredients, especially when picking an exfoliator. Scrubbing with a product that uses organic particles helps to replenish the oils already in your skin."
Shyenne is a registered facialist in New York City.

Kill the Chill
"When outdoors, keep your hands, face and neck covered. At home, try to keep bedroom temperatures low and use a humidifier."
Naima is an aesthetician at the L'Oréal Paris Spa at the Ritz-Carlton hotel in New York City.
